

## Outdoor use

## Model 52.01

**Use**

Model 52.01 is a sliding pass-through that comes ready for installation and comprises an integrated two-way intercom system. It is primarily aimed at night time use in roofed outdoor areas such as petrol station forecourts, gatehouses and kiosks. M3/FB4 firearm certification comes as standard.

**Safety and features**

- Sliding pass-through for pedestrians, fits flush with outside façade and features small and large drawer, front panel and integrated intercom for automatic two-way conversation.
- Small drawer for handing over change and receipts – comprises coin trough with user-friendly edges for removing coins plus integrated underlay for use as a deskpad.
- Large drawer ideal for merchandise such as drinks, food, magazines, etc.
- Alternating slide mechanism locks automatically in return position. Lock can only be released by the operator behind the counter by using the lever.
- It is not possible to reach through the hole as the unit changes position or manipulate the mechanism.
- Dust and draught sealed.
- Materials offer firearms protection, capable of withstanding heavy handgun fire eg, up to 44 Magnum. Has received M3/FB4 certification from the firearms licensing authority.
- Model 52.01 fulfils German UVV regulations.

**Materials and use**

- Steel plate pass-through.
- Fascia and small drawer made out of 1 mm thick stainless steel, large drawer carriage in 3 mm steel plate with black-brown RAL 8022 powder coated cover.
- All metal parts have been produced using state-of-the-art precision laser cutting technology for ultimate quality.
- Model 52.01 is suitable for outdoor use in covered areas.
- The unit requires no maintenance. No need for cleaning or lubrication.

### Model 52.01

#### Installation and dimensions

The unit comes ready for mounting in prepared walls/façade recesses. Coming from the outside, it is mounted by inserting into the recess before screwing tight underneath the unit on the inside. Consideration must be given to access requirements and the possible need to remove the unit later in the unlikely event of repairs.
